PATENT Docket No. GC743-2-US

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of	
Soucaille et al.) Group Art Unit: Unassigned
Serial No.: 10/511,043)) Examiner: Unassigned
Filed: April 18, 2003))
For: Method of Creating a Library of Bacterial Clones with Varying Levels of Gene Expression)))

Information Disclosure Statement

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

Applicants submit herewith patents, publications or other information (listed on the attached Form PTO-1449 and attached thereto) of which they are aware, that they believe may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 CFR §1.56.

This Information Disclosure Statement:

(a)∐	accompanies	the new patent	t application	submitted herewith.	37	CFR
§1	.97	(a).		٠			

- (b) is filed within three months after the filing date of the application or within three months after the date of entry into the national stage of a PCT application as set forth in 37 CFR §1.491.
- (c) \boxtimes as far as is known to the undersigned, is filed before the mailing date of a first Office Action on the merits.

applic as is reject either speci Depo Inforn	is filed after the first Office Action and more than three months after the cation filing date or PCT national stage date of entry filing but, as far known to the undersigned, prior to the mailing date of either a final ion or a notice of allowance, whichever occurs first, and is accompanied by the fee (\$180.00) set forth in 37 CFR §1.17(p) or a certification as fied in 37 CFR §1.97(e), as checked below. Authorization to charge sit Account No. 07-1048 in the amount of \$180.00 to cover the cost of this nation Disclosure Statement is provided in the Transmittal Letter submitted with in duplicate.
allowa Trans No. 0 as sp cons	is filed after the mailing date of either a final rejection or a notice of ance, whichever occurred first, and is accompanied by authorization (in the smittal Letter submitted herewith in duplicate) to charge Deposit Account 7-1048 the fee (\$180.00) set forth in 37 CFR §1.17(I)(1) and a certification ecified in 37 CFR §1.97(e), as checked below. This document is to be idered as a petition requesting consideration of the Supplemental mation Disclosure Statement.
[If either of boxes ((d) or (e) is checked above, the following "certification" under 37 CFR
§1.97(e) may need	to be completed.] The undersigned certifies that:
count	Each item of information contained in the Information Disclosure ment was cited in a communication mailed from a foreign patent office in a terpart foreign application not more than three months prior to the filing of information Disclosure Statement.
foreig reasc more	No item of information contained in this Information Disclosure Statement cited in a communication mailed from a foreign patent office in a counterpart gn application or, to the knowledge of the undersigned after making chable inquiry, was known to any individual designated in 37 CFR §1.56(c) than three months prior to the filing of this Information Disclosure ement.
A copy of the items	on Form PTO-1449 is supplied: PCT International Search Report for
PCT/US03/12045, f	iled April 18, 2003 with attached patents and publications.
🛛 each 📋	none only those listed below:
Those patent(s) or p	oublication(s) which are marked with an asterisk (*) on the attached Form
PTO-1449 (Books)	not sent) are not supplied. Complete bibliographic information is unknown
or unavailable. The	cited publications are books or reference manuals and are commonly
available. Reproduc	ction of such publications would result in a voluminous submission.

Serial No. 10/511,043 Page 3

The Examiner is reminded that a "concise explanation of the relevance" of the submitted prior art "may be nothing more than identification of the particular figure or paragraph of the patent or publication which has some relation to the claimed invention." MPEP §609.

While the information and references disclosed in this Information Disclosure Statement may be "material" pursuant to 37 CFR §1.56, it is not intended to constitute an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR §1.97(b), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR §1.56(a) exists. It is submitted that the Information Disclosure Statement is in compliance with 37 CFR §1.98 and MPEP §609 and the Examiner is respectfully requested to consider the listed references.

Respectfully submitted,

Date: August 30, 2005
